**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-5, 10-13, and 20-27 drawn to a method and apparatus for monitoring and controlling alternating current (AC) components of a laser beam comprising a first circuit for adjusting alternating circuit (AC) components in an optical beam in response to variations in bandwidth of a second photodiode, classified in class 250, subclass 214R.
  - II. Claims 6-9, 14-19, and 28-30 drawn to a method and apparatus for monitoring and controlling direct current (DC) components of a laser beam comprising a first circuit for adjusting direct circuit (DC) components in an optical beam in response to variations in bandwidth of a second photodiode, classified in class 250, subclass 214R.
2. The inventions are distinct, each from the other because:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each of the inventions has separate utility as stated above. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 2878

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pascal M. Bui-Pho whose telephone number is (571) 272-2714. The examiner can normally be reached on Monday through Friday: 8:30 a.m. - 5:00 p.m..
